Mastering Best Techniques

For many years, MARC & ANDRÉ has been creating lingerie that can be rightfully referred to works of art. Like prominent sculptors of Romance, our designers (and they are great romantics at heart, indeed) expertly use the finest tools and materials to produce exquisite items featuring the aesthetic impeccability and true comfort. We bring to perfection every seam and every detail – all for giving you as much comfort as possible.

The new collection is based on three ideas: **FLORAL WILDERNESS**, **SMART & SIMPLE** and **OPULENT BOUDOIR**. This is a compilation of beautiful works, first and foremost dedicated to love, your love for... your own self. This love is meant to be ultimate, all-inclusive and sincere!

FLORAL WILDERNESS means that intricate embroidery, floral motifs and incredible colour combinations are bound to be lavishly presented.

SMART & SIMPLE is a reliable basic range perfect for every day. Its precise cut and trendy minimalistic design are capable of transforming a most routine day-to-dayness into a holiday.

Finally, there is **OPULENT BOUDOIR** where we have fabrics perfect for a 'barely there', playful historical interpretations and a subtle colour palette. This is just a glance into a personal feminine setting, intimate and vibrant – pure art without any artificiality!

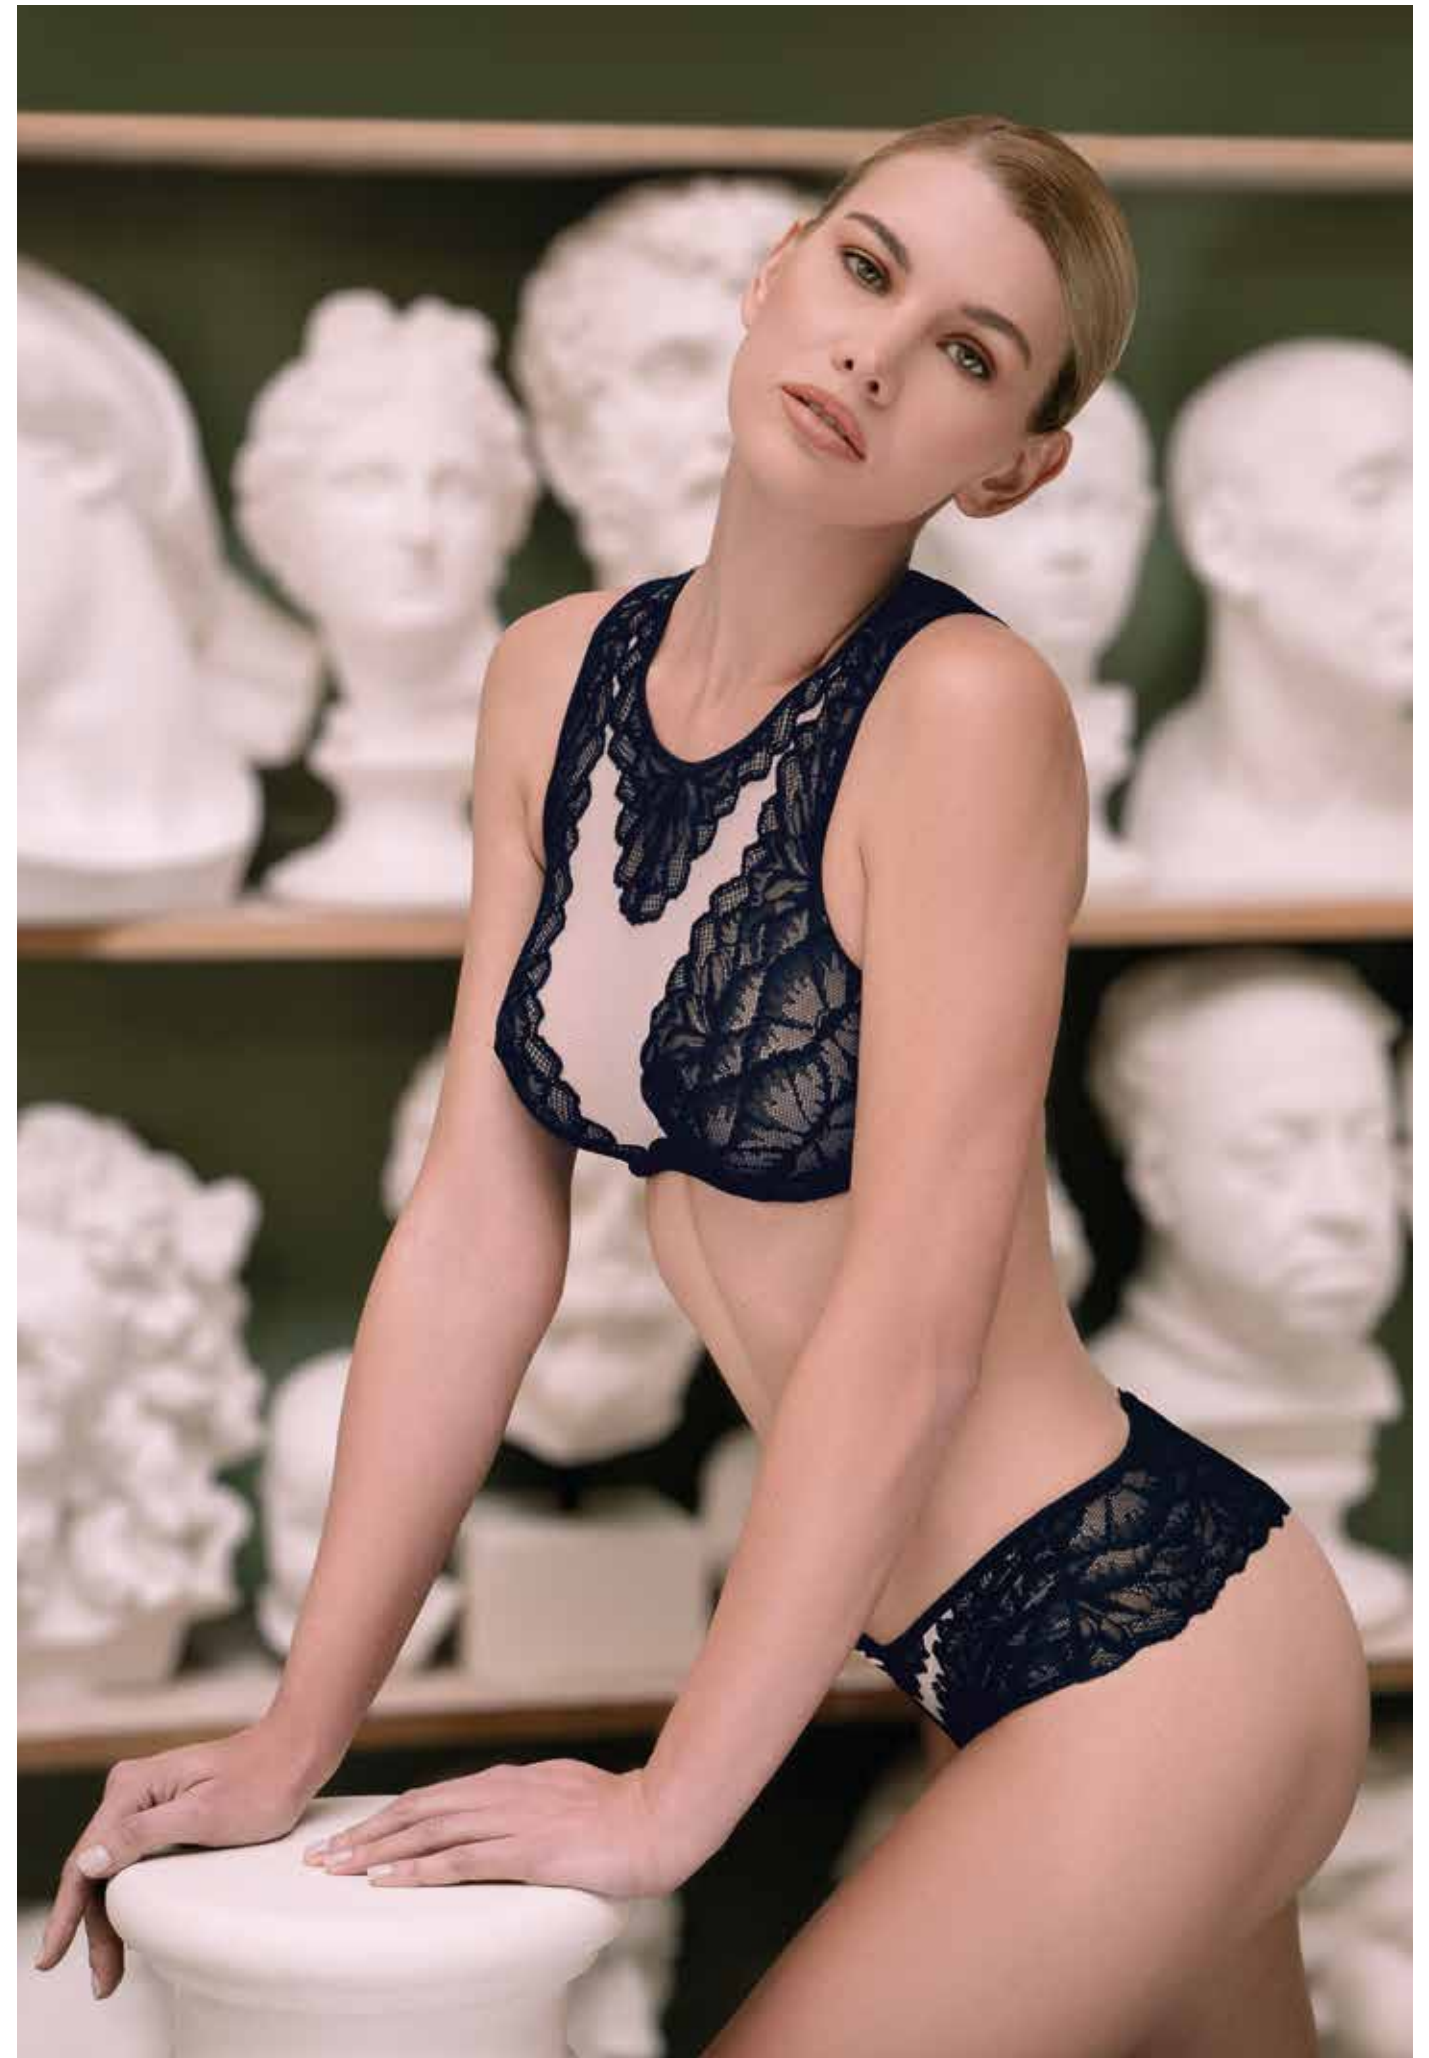

Our fine arts academy is ready to welcome you as our distinguished guest!

SIGNATURE STYLE

Black lingerie is an indispensable attribute of Her Majesty Fashion the Charmer. The design is classical and much in tune with the "keep it simple" principle, though we could not miss a chance to work miracles by combining various textures to ensure that your preferred style is truly original.

WINNING HAND

Our clients are fashion-lovers with strong and confident personalities, they are brave and on the other hand they know all about a sublime sensuality. This was our inspiration when we were creating this series: as a result, it turned out spicy and bold, though very romantic at the same time.

Pandora

THE ULTIMATE TREASURE

Do not be afraid to open this Pandora's box - there are many interesting things in it.

Listen to your today's inner self and choose translucent soft cup bras or the provocative push-up. As for the colours, here the designers relied on black and red - this lingerie (as well as its owner, for sure!) has a definitely strong character.

Mirage

IT ISN'T JUST A DREAM

MIRAGE is the series that will not leave anyone indifferent. Lace chemises are beautiful on all sides: the front has a nice low neckline, there is a gorgeous cutout on the back.

It seems that an oriental fairy tale is present around - of course, the one with a very happy end!
